

**Making a difference in
the community and in
life...**

"For a long time Conrad's had been looking for a means to use our strengths and gifts to give back to our Community. We wanted to do it in a way that would ensure our contribution was going to a person truly in need. We feel confident that we have found this in Love INC. The unexpected benefit for Conrad's is the impact it has made on our team as we band together to care for someone in need beyond our usual customer base. It has put our mission statement into action. Thank you Love INC."
